

You Are Invited

to join our Gifted Lecture Series

on Monday, April 3, 2017 from 6:30 - 8:00 PM

at Choice School for Gifted Children

20451 Westminster Hwy. North, Richmond BC, V6V 1B3

Dr. Joan Pinkus: What are the Gender Differences in Growing up Gifted?

In this presentation, Dr. Pinkus will explore questions about the ways in which boys and girls develop their potential and the self-confidence to express their intelligence. What do high potential children need in order to develop their gifts and talents and grow to be successful, self-confident young adults? How can we ensure that our young gifted boys and girls become comfortable with risk-taking, competition, and learn from challenges and failure? Dr. Pinkus will share the research and her experience that addresses these important questions.

About Dr. Joan Pinkus

Dr. Joan Pinkus is a Registered Psychologist with the College of Psychologists of British Columbia. She holds a B.A. (Hons. Psych.) from the University of Montreal, an M.A. (Psychology) from the University of Toronto and a Ph.D. (Psychology) from the University of Toronto.

In her practice, Dr. Pinkus offers short and long term psychotherapy to children, adolescents, adults, and families. She has professional interest and expertise in the area of gifted learners and their needs, and conducts assessments to determine giftedness. Dr. Pinkus consults with parents and educators to help develop appropriate academic programs and social experiences for the individual child, adolescent or young adult.

Admission is free and free childcare is provided
